Introduction

This supplement provides information for playing Druids, a specialized cleric, for the Basic Fantasy Role-Playing Game rule system. If you do not already have a copy of the **Basic Fantasy RPG Core Rules**, please visit the website and download a copy.

Next Section

Druid (Cleric subclass)

Level	Exp. Points	Hit Dice	Spells 1	2	3	4	5	6
1	0	1d6	-	-	-	-	-	-

20	1,170,000	9d6+11	6	5	5	4	3	3

Druids are priests of nature, worshiping nature itself, or gods of nature. Some Druids use plants like holly, mistletoe, or ivy as holy symbols, but the GM can decide otherwise.

Druids advance at the same rate as Clerics, and they use the same attack bonuses and saving throws. Druids must have a minimum Wisdom of 9, and Charisma of 9. Only humans, or half-humans if your GM uses that option, can become druids.

Druids may not wear any metal armor or metal shields. Druids can use clubs, sickles, darts, spears, daggers, scimitars, slings, staves, and shortbows.

Druids speak a distinct language, Druidic, which is only known by other druids. At 1st level, druids gain Druidic as a bonus language.

At 2nd level, druids can cast spells, similar to a Cleric, and they gain the ability to Control Animals, which works in a similar fashion as the cleric's Turn Undead ability. This ability table is at the end of the class description.

At 3rd level, druids can identify plants, animals, and clean water without error. In addition, they can move through natural overgrowth at their normal movement rate, and without leaving evidence of their passage, per the spell **pass without trace**.

SPELLS

Below are listed spells available to the Druid subclass described above. Spells in **bold** are new to this supplement. Spells with (NS) indicate the spell is found in the **New Spells Supplement**. Spells with a * are reversible.

Druid Spells

First Level Druid Spells

1	**Animal Friendship**
2	Create Water
3	Cure Light Wounds*
4	Detect Magic
5	**Detect Snares and Pits**
6	**Entangle**
7	**Faerie Fire**
8	Goodberry (NS)
9	Light*
10	**Pass Without Trace**
11	Resist Cold
12	Shillelagh (NS)

Second Level Druid Spells

1	Barkskin (NS)
2	Charm Animal
3	Find Traps
4	**Heat Metal***
5	**Obscuring Mists**
6	**Produce Flame/Cold**
7	Resist Fire
8	Restore Health (NS)
9	**Slow Poison**
10	Speak With Animals
11	Tree (NS)
12	**Warp Wood***

Third Level Druid Spells

1	**Call Lightning**
2	Cure Disease*
3	**Hold Animal**
4	Neutralize Poison*
5	**Plant Growth**
6	**Protection From Fire**
7	Quench (NS)
8	Take Animal Form
9	Water Breathing

Fourth Level Druid Spells

1	**Call Woodland Beings**
2	**Control Temperature, 10' Radius**
3	Cure Serious Wounds*
4	Dispel Magic
5	Insect Plague
6	Lower Water
7	Magic Mirror (NS)
8	**Protection From Lightning**
9	**Speak With Plants**
10	**Summon Animals I**
11	**Tree Form**

Fifth Level Druid Spells

1	Blight (NS)
2	**Commune With Nature**
3	**Control Winds**
4	Dispel Evil
5	**Flame Strike**
6	Growth of Animals
7	**Rock to Mud***
8	Ring of Lesser Healing (NS)
9	Stoneskin (NS)
10	**Summon Animals II**
11	Wall of Fire

Sixth Level Druid Spells

1	**Animate Natural Objects**
2	Find the Path
3	**Part Water**
4	**Pass Tree**
5	Reincarnate
6	Repel Wood (NS)
7	**Summon Animals III**
8	**Summon Weather**
9	Word of Recall

DESCRIPTION OF NEW SPELLS

Animal Friendship
Druid 1

Range: 30'
Duration: permanent

The caster attempts to bind a natural animal into their service as an animal friend. The target creature must be present, and the caster must touch it to cast the spell. The animal is entitled to a save vs. Spells. On a success, the spell fails, but the animal does not become hostile.

On a failure, the animal will behave as if permanently charmed by the caster, and will perform tasks assigned to it to the best of its abilities. If the animal is mistreated, the GM may determine that it can attempt another save vs. Spells.

A caster can have any number of animal friends, but the number of HD for all of them may not exceed twice the caster's level. For example, a 4th-level Druid is capped at 8 HD worth of animal friends.

Animate Natural Objects
Druid 6

Range: 100'+10'/level
Duration: 1 round/level

This spell allows the caster to animate objects that are normally inanimate, but targets of this spell must be natural objects (ex. a boulder, a tree stump). It otherwise behaves exactly like **animate objects**.

Take Animal Form
Druid 3

Range: Self
Duration: 1 hour/level

The caster changes its shape into that of a naturally-occurring animal, up to a number of HD equal to the caster's level. The caster can maintain this shape up to the duration of the spell. If the caster is slain, they change to their original form.

The caster's actions are limited by the physical abilities of the animal they have changed into, and they use the physical statistics of that animal. The caster retains their own mental abilities.

Call Lightning
Druid 3

Range: 100' + 10'/level
Duration: 1 round/level

Immediately upon completion of the spell, and at most once per round thereafter, the caster may call down a 5-foot wide, 30-foot long vertical bolt of lightning that deals 3d6 points of electrical damage. The bolt of lightning flashes down in a vertical stroke at whichever target point the caster chooses within the spell's range (measured from the caster's position at the time of casting). Any creature in the target area or in the path of the bolt is affected; a successful save vs. Spells reduces damage taken by half.

The caster needs not call a bolt of lightning immediately; other actions, even spellcasting, can be performed. However, each round after the first, the caster may choose to call a bolt instead of taking some other normal action. The caster may call a total number of bolts equal to one-third of their caster level, rounded down.

If the caster is outdoors and in a stormy area – a rain shower, clouds and wind, hot and cloudy conditions, or even a tornado (including a whirlwind formed by a djinni or an air elemental) – each bolt deals 3d8 points of damage instead of 3d6.

This spell functions only where the open sky is accessible, generally meaning outdoors; bolts may be summoned through windows or skylights at the GM's discretion.

Call Woodland Beings
Druid 4

Range: 120'
Duration: 1 round/level

This spell summons woodland creatures. They appear where the caster designates and act immediately, on their turn (they cannot be summoned into an environment that cannot support them). They attack the caster opponents to the best of their ability. If the caster can communicate with the creatures, they can direct them not to attack, to attack particular enemies or to perform other actions.

The caster may conjure one type of creature from this list, at their option:

- 4 centaurs,
- 16 pixies,
- 2 treants, or
- 4 unicorns

This spell only works outdoors in a natural location; it will not function in any artificial structure, nor within the boundaries of any village, town, or city.

Commune With Nature

Druid 5 Range: see text
Duration: instantaneous

The caster becomes one with nature, attaining knowledge of the surrounding territory. After 10 minutes of concentration, the caster instantly gains knowledge of one fact per caster level among the following subjects: the ground or terrain, plants, minerals, bodies of water, people, general animal population, presence of woodland creatures, presence of powerful unnatural creatures, presence of settlement or structure, or even the general state of the natural setting.

In outdoor settings, the spell operates in a radius of 1 mile per caster level. In natural underground settings – caves, caverns, and the like – the radius is limited to 100 feet per caster level. The spell does not function where nature has been replaced by construction or settlement, such as in dungeons and towns.

Control Temperature, 10' Radius

Druid 4 Range: 0'
Duration: 1 hour/level

The caster gains the ability to alter the temperature in the surrounding 10-foot radius area by up to 10 degrees Fahrenheit. The caster chooses whether to increase or lower the temperature.

Control Winds

Druid 5 Range: 0 (see text)
Duration: 10 minutes/level

The caster alters wind force around them (40 feet per caster level radius cylinder 40 feet high). The caster can make the wind blow in a certain direction or manner, increase its strength, or decrease its strength. The new wind direction and strength persist until the spell ends or until the caster chooses to alter it, which requires concentration. The caster may create an "eye" of calm air up to a 40-foot radius around them and may choose to limit the area of effect to any cylindrical area less than their full limit.

The caster may choose wind patterns over the spell's area. They can choose a downdraft from the center outward, an updraft from the outer edges in toward the center, a rotation that causes the winds to circle the center, or a blast that simply causes the winds to blow in one direction across the entire area from one side to the other.

For every three caster levels, the caster can increase or decrease wind condition by one level (as described in the Waterborne Travel section of the **Basic Fantasy RPG Core Rules**).

Detect Snares and Pits

Druid 1 Range: 60'
Duration: 10 turns

By means of this spell, the caster can detect simple pits, deadfalls, and snares as well as mechanical traps constructed of natural materials. The spell does not detect complex traps, including trapdoor traps.

This spell does detect certain natural hazards, for instance quicksand (detected as a snare), a sinkhole (a pit), or unsafe walls of natural rock (a deadfall). However, it does not reveal other potentially dangerous conditions. The spell does not detect magic traps (except those that operate by pit, deadfall, or snaring), nor mechanically complex ones, nor those that have been rendered safe or inactive.

The amount of information revealed depends on how long the caster studies a particular area.

- 1st Round: Presence or absence of hazards.
- 2nd Round: Number of hazards and the location of each. If a hazard is outside the caster's line of sight, then the caster discern its direction but not its exact location.
- Each Additional Round: The general type and trigger for one particular hazard closely examined by the caster.

Each round, the caster can turn to detect snares and pits in a new area. The spell can penetrate barriers, but 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt blocks it.

Entangle

Druid 1 Range: 200'
Duration: 3 rounds/level

This spell causes existing natural growth in a 40- by 40-foot area to become overgrown and difficult to pass through. If a creature was in the target area when the spell materializes, or enters it, it must succeed a save vs. Spells or become tangled in the overgrowth for the duration of the spell. A creature who is tangled in this way must spend its full round to wade through the overgrowth, with their movement affected as noted below.

Creatures can move through the area with difficulty. Small and man-sized creatures passing through the area move at ¼ of their normal movement, while larger creatures move at ½ of their normal movement.

Faerie Fire Range: 200' +10'/level
Druid 1 Duration: 1 minute/level

A pale glow surrounds and outlines all objects including individuals within a 20-foot radius from a point chosen by the caster. Outlined subjects shed light as candles. Outlined creatures do not benefit from the concealment normally provided by darkness, and the spell effectively negates the effects of blur, displacement, invisibility, or similar effects. The light is too dim to have any special effect on undead or dark-dwelling creatures vulnerable to light. The faerie fire can be blue, green, or violet, according to your choice at the time of casting. The faerie fire does not cause any harm to the objects or creatures thus outlined.

Flame Strike Range: 60'
Druid 5 Duration: instantaneous

A **flame strike** produces a vertical column of divine fire roaring downward (cylinder with 10-foot radius, 30 feet high). The spell deals 6d8 points of damage to any creatures within the area of effect; a save vs. Spells for half damage is allowed.

Heat Metal Range: 25'
Druid 2 Duration: 7 rounds

This spell causes a single item made of ferrous (iron-based) metal to become hot for a brief period of time. The affected item is warm to the touch immediately, and then becomes progressively hotter each round as indicated on the table below. The damage roll indicated is applied to any creature holding or wearing the affected item; a brief touch does no damage.

Round	Temperature	Damage
1st	Warm	None
2nd-3rd	Hot	1d4 points
4th-5th	Searing	2d4 points
6th	Hot	1d4 points
7th	Warm	None

Note that this spell can damage items harmed by heat, such as potions for example, and might boil water, wine, or oil stored in vessels within affected metal item, possibly causing an affected vessel to burst. Generally this will happen on the 4th or 5th round, when the effect is at its most powerful.

The reverse of this spell is **chill metal**. It inflicts damage as outlined in the table above, but the damage is caused by cold instead of heat. Note that this can freeze water, congeal oil, and so on. Frozen water might burst its vessel.

Hold Animal Range: 180'
Druid 3 Duration: 2d8 turns

This spell functions like **hold person,** except that it affects only animals; specifically, this means non-magical living creatures of animal intelligence, including giant-sized animals. A save vs. Spells is allowed to resist this spell.

Obscuring Mists Range: 20' radius
Druid 2 Duration: 1 turn/level

This spell causes a bank of misty vapor to arise around the caster, remaining stationary once created. The vapor obscures all sight, including darkvision, beyond 2d4 feet. A strong wind can disperse the spell in one-quarter the usual duration

Part Water Range: 60'
Druid 6 Duration: 1 turn/level

The caster gains the ability to manipulate a body of water, parting it to create a pathway. The caster can affect an area of water up to 5 feet per caster level.

Pass Tree Range: Touch
Druid 6 Duration: Instantaneous

The caster gains the ability to walk into one tree they can see and exit from another they can see, as though walking through a door. The trees must be on the same plane, and must be living trees.

Pass Without Trace Range: Touch
Druid 1 Duration: 1 hour/level

This spell permits up to one creature per caster level to move through any type of terrain, leaving neither footprints nor scent. Tracking the subjects by non-magical means is thus rendered impossible.

Plant Growth
Druid 3
Range: special
Duration: permanent

This spell causes normal vegetation (grasses, briars, bushes, creepers, thistles, trees, vines) within 400 feet plus 40 feet per caster level to become thick and overgrown. The plants entwine to form a thicket or jungle that creatures must hack or force a way through. Movement rate is reduced to a maximum of 5'/round, or 10' for Large creatures. The area must have brush and trees in it for this spell to take effect. An area up to 100 feet radius may thus be altered. Also, the caster may specify an area (a path, a clearing, etc.) within the given area of effect which is not so affected.

This spell has no effect on plant creatures, that is, any self-willed and/or animated plant.

Produce Flame/Cold
Druid 2
Range: 0
Duration: 1 min./level

A ball of fire as bright and hot as a lit torch floats just above the caster's hand. The fire doesn't harm the caster or their equipment. Alternatively, a bluish, cold aura may be produced, which also sheds light as bright as torch-light.

The flame or cold aura can be used as a melee or weapon as well as a source of light, dealing 1d6 points of fire or cold damage (+1 point per caster level, maximum +5). It can be thrown as far as fifty feet. As soon as the caster attacks, the flame or cold aura reappears in their hand. Every such attack reduces the duration of the spell by 1 minute, to a minimum of zero minutes, at which point the spell ends.

Protection From Fire
Druid 3
Range: Touch
Duration: special

If the caster touches themself, this spell grants temporary immunity to fire (normal and magic). When the spell absorbs 12 points per caster level of magical fire damage, it is discharged. Otherwise the spell lasts for 1 turn per caster level.

If the spell is cast upon another creature than the caster, **protection from fire** grants temporary immunity against normal fire. The spell also offers a +4 bonus to saving throws against magical fire and if the save is successful, the creature suffers no damage (and only 25% if the save fails). This version of the spell lasts for 1 turn per caster level.

Protection From Lightning
Druid 4
Range: Touch
Duration: special

This spell functions exactly like **protection from fire**, except that that it protects against any sort of electrical or lightning damage.

Rock to Mud*
Druid 5
Range: 150'
Duration: permanent

This spell turns natural, uncut or un-worked rock of any sort into an equal volume of mud; up to two 10-foot cubes per caster level may be so transformed. Magical stone is not affected by this spell. The depth of the mud created cannot exceed 10 feet. A creature unable to levitate, fly, or otherwise free itself from the mud sinks until hip- or chest-deep, reducing its speed to 5' and causing it to suffer a -2 penalty to attack rolls, saving throws, and armor class. Creatures large enough to walk on the bottom can wade through the area at a speed of 5', suffering none of the other penalties given.

If **rock to mud** is cast upon the ceiling of a cavern or tunnel, the mud falls to the floor and spreads out in a pool to a depth of 5 feet. The falling mud and the ensuing cave-in deal 8d6 points of damage to anyone caught directly beneath the area, or half damage to those who succeed a save vs. Death Ray.

Castles and large stone buildings are generally immune to the effect of the spell, since **rock to mud** cannot affect worked stone and doesn't reach deep enough to undermine such a buildings' foundation. However, small buildings or structures often rest upon foundations shallow enough to be damaged or even partially-toppled by this spell.

The mud remains until a successful **dispel magic** or **mud to rock** spell restores its substance (though not necessarily its form). Evaporation turns the mud to normal dirt over a period of days. The exact time depends on exposure to the sun, wind, and normal drainage.

When using the reverse, **mud to rock**, the spell converts the same volume of mud into relatively soft stone (such as limestone or sandstone) permanently. Any creature in the mud must save vs. Death Ray to escape before the area transforms into rock (assuming it has enough movement to do so).

Slow Poison
Druid 2
Range: Touch
Duration: 1 hour/level

The creature touched by the caster becomes temporarily immune to poison. Any poison in its system or any poison to which it is exposed during the spell's duration does not affect the subject until the spell's duration has expired. **Slow poison** does not cure any damage that poison may have already done, with exception of the following circumstances.

If cast on a character who received lethal damage from poison the previous round, the spell will remove that round's poison damage only, and delay it for the duration of the spell. Prior poison damage will remain unaffected, but, as noted above, no further damage is accrued until the spell lapses, and will never accrue if the poison is neutralized while this spell is in effect. This will give the poisoned victim an opportunity to seek a cure to neutralize the poison before it is fatal.

Summon Animals I
Druid 4
Range: 40'/level
Duration: One hour

This spell summons 1d8 animals within range. No animal may exceed 4HD. The caster may choose up to three types of animals to summon. If none of those types of animals can be found within the spell's range, the spell fails.

Animals that appear are friendly to the caster, and will follow simple commands to the best of their abilities.

The caster can choose to dismiss an animal summoned by this spell at any time.

Summon Animals II
Druid 5
Range: 60'/level
Duration: One day

This spell is exactly like **summon animals I**, but it summons up to 3d4 animals (4 HD or less), or 1d6 animals (8 HD or less).

Summon Animals III
Druid 6
Range: 80'/level
Duration: One day

This spell is exactly like **summon animals I**, but it summons up to 4d6 animals (4 HD or less), 3d4 animals (8 HD or less), or 1d4 animals (12 HD or less).

Summon Weather
Druid 6
Range: 10 miles
Duration: 5 turns/level

The caster is able to summon nearby weather conditions. The spell only works while the caster is outdoors, or can see the outdoors.

The caster chooses up to three types of weather conditions. If none of those weather conditions can be found within range, the spell fails. The caster cannot control the weather and bend it to their wishes.

Tree Form
Druid 4
Range: Touch
Duration: 1 turn/level

The caster merges their form into a natural tree or similarly large plant. While in this plant, the caster is aware of their surroundings, but cannot speak or cast spells. Within the plant, the caster gains the benefits of a rest at an accelerated rate. Each turn spent resting in the plant's form counts as an hour's sleep.

While merged in this way, the caster takes half the damage done to the plant. If the plant is destroyed, the caster is shunted into the nearest open space.

Warp Wood*
Druid 2
Range: 50'
Duration: instantaneous

The caster causes non-magical wood in a 20-foot radius to bend and warp, permanently destroying its straightness, form, and strength. A warped door springs open or becomes stuck; a boat or ship springs a leak; warped weapons (like bows and arrows) are useless. The caster may warp wood object(s) up to 1 foot on all sides per caster level.

Alternatively, the caster can "un-warp" non-magical wood (effectively warping it back to normal), straightening wood that has been warped by this spell or by other means. The caster can combine multiple consecutive **warp wood** spells to warp (or un-warp) an object that is too large to warp with a single spell.

NEW COMBAT RULES

Control Animals

Druids have the ability to control or influence animals, which works like the Cleric's Turn Undead ability. The Druid attempts to control or influence target animals within range, rolls 1d20, and tells the GM the result. The player should always roll, even if the GM knows the character can't succeed (or can't fail).

The GM looks up the Druid's level on the Druid's **Control Animals Table**, identified below, and cross references it with the animal's hit dice. If the target animal is a domesticated animal, it is treated as half of its actual HD. If the target animal is a magical or monstrous animal, it is treated +1 HD on the table. If the table indicates "No" for that combination, it is not possible for the Druid to affect that animal. If the table gives a number, that is the minimum number needed on 1d20 to Influence the target animal. If the table says "I" for that combination, that type of animal is automatically Influenced. If the result shown is a "C" for that combination, that type of animal is automatically Controlled.

If the roll is a success, 2d6 HD of animals are affected. Surplus hit dice are lost, but at least one animal is always affected if the first roll is a success.

If a mixed group of animals is to be affected (ex. a wolf and a bear), the player still rolls just once. The result is checked against the lowest HD first (the wolf), and if it is successfully Influenced or Controlled, the same result is checked against the next higher HD animal. Likewise, the 2d6 HD are rolled only once.

If a Druid succeeds at Influencing or Controlling the animals, but not all animals present are affected, the Druid may try again in the next round to affect those which remain. If any roll to Influence or Control the remaining animals fails, that Druid may not attempt to this ability again for one full turn. A partial failure (possible against a mixed group) counts as a failure for this purpose.

Druid Control Animals Table

	Hit Dice of Animal										
Druid Level	**< 1**	**1**	**2**	**3**	**4**	**5**	**6**	**7**	**8**	**9**	**10**
1	9	13	17	19	No	No	No	No	No	No	No
2	7	11	15	18	20	No	No	No	No	No	No
3	5	9	13	17	19	No	No	No	No	No	No
4	3	7	11	15	18	20	No	No	No	No	No
5	2	5	9	13	17	19	No	No	No	No	No
6	I	3	7	11	15	18	20	No	No	No	No
7	I	2	5	9	13	17	19	No	No	No	No
8	I	I	3	7	11	15	18	20	No	No	No
9	C	I	2	5	9	13	17	19	No	No	No
10	C	I	I	3	7	11	15	18	20	No	No
11	C	C	I	2	5	9	13	17	19	No	No
12	C	C	I	I	3	7	11	15	18	20	No
13	C	C	C	I	2	5	9	13	17	19	No
14	C	C	C	I	I	3	7	11	15	18	20
15	C	C	C	C	I	2	5	9	13	17	19
16	C	C	C	C	I	C	3	7	11	15	18
17	C	C	C	C	C	C	2	5	9	13	17
18	C	C	C	C	C	C	C	3	7	11	15
19	C	C	C	C	C	B	C	2	5	9	13
20	C	C	C	C	C	B	C	C	3	7	11

Domesticated animals are treated as half their actual Hit Dice.
Monstrous Animals are treated as 1 Hit Die higher.

Influenced animals will not interact with anyone other than the Druid. The Druid can persuade the animal to take an action that does not involve a significant risk to it, such as leaving a certain area.

Controlled animals will do their best to perform an action that may involve risk to itself, but they are not suicidal. When an Influenced or Controlled animal is significantly wounded (determined by GM), check morale; on a failure, the animal flees.

NEW MAGIC ITEMS

The items listed below are magic items made by and for Druids. Unless otherwise noted in the item description, these items may be used by any class.

Ring of the Green: This ring made of what appears to be a tight collection of tiny green vines. When worn, the vines will writhe and (painless) grow into the wearer's finger. It takes a full week for the ring to fully bond with the wearer. Once bonded, the ring provides two benefits. The first is that as long as the wearer is outdoors for a full hour of sunlight (or two full hours of overcast weather), the wearer doesn't need to eat or drink anything for the day. The second is that each hour of complete rest in the outdoors is the equivalent of four hours of sleep.

Ring of the Dryad: This ring is made of highly polished wood. When worn the user is able to manifest the effects of a **tree sanctuary** spell once per day. The duration is for up to an hour, though the wearer can exist at any time.

Slippers of the Dryad: When wearing these light slippers (or sandals; their appearance can vary), the wearer is under the continual effects of the **pass without trace** spell, and is able to pass through any naturally overgrown area unimpeded.

Staff of the Woodlands: This staff operates as a +2 staff and provides its user with the continual effects of **pass without trace** spell. These abilities require no charges and continue to work even if the staff is exhausted of all charges. In addition it has several other abilities that do cost charges. The following powers cost one charge per use: **charm animal**, **speak with animals**, and **hold animal**. The following powers cost two charges per use: **summon animals II**, **animate natural object**. This item may only be used by Druids.

Sword of the Sylvan: This slightly curved single-edged sword (counts as a longsword/scimitar) is a +1 magic weapon under normal circumstance, but when used outdoors in a temperate climate it becomes a +3 magic weapon.

Torc of Protection: This ornamental neck ring functions as a **ring of protection**, but its power is passively activated by the wearer. If the wearer is level 1 through 8, the protection is +1; if the wearer is level 9 through 14, the protection is +2; if the wearer is level 15 or above, the protection is +3. As the protection is drawn from the wearer, this may only be used by Druids.

Vestment of the Druid: This is a light covering that can be worn over other clothing or armor. It is typically green (though sometimes brown) in color with natural scenes embroidered across the front and back panels. The wearer may manifest the effects of the **animal shape** spell once a day. The duration is for up to one hour, though the wearer may end the effect early. This item may only be used by Druids.

Making Magic Items

Druids follow the rules for cleric for making spell scrolls; they cannot make non-spell (i.e. protection) scrolls.

Druids of 7th-level and higher make potions as a Cleric, and Druids of 9th-level and higher may make the magic items listed here (plus any others that the GM feels are appropriate) as a Cleric.

Druids
